

Underground

Black suicidal thoughts come to my mind

I do feel depressed all the time

If you ask me, yes I'm down

Do I want to be down ?

Nothing else I can say...

I just feel so lost & down...

How can I find inner peace in life ?

I'm fucked up when you're not by my side

If you ask me, yes I'm down

Do I want to be down ?

Nothing else I can say...

I just feel so lost & down...

Underground

Even when I sleep, my dreams are fucking dark

I wanna feel free - like I did when - you were around

If you ask me, yes I'm down

Do I want to be down ?

Nothing else I can say...

I just feel so lost & down...

Fucking down...
