

Wonder why

Verse 1

I'm not living... just trying to survive
I can't breathe, I'm falling down

I couldn't tell if it's sadness, rage or pain...
Inside, in silence it eats away at me

I wonder why (x2)

Verse 2

This is real
I couldn't lie
Can you hear me ?
Don't let me drown

I couldn't tell if it's sadness, rage or pain...
Inside, in silence it eats away at me

I wonder why (x2)

You can't hide yourself behind theses things
(You can't hide yourself behind theses things)

Your words still have echoed in my head
(Your words still have echoed in my head)

I think that you poisoned me a long time ago
(I think that you poisoned me a long time ago)

It kills me everyday a little bit more
(It kills me everyday)

I wonder why (x4)
